

1690 CW Nozzles

4-2

HIGH VOLUME FUELING

High volume automatic shut-off nozzle provides 100 gpm and is 30% lighter than similar nozzles.

- Contains a poppet disc seal, rated at $-40^{\circ}\text{F}/\text{C}$ (exceeding the UL standard of $-20^{\circ}\text{F} / -29^{\circ}\text{C}$) to prevent fuel leakage from the main seal in extreme cold weather.
- Self-adjusting stem packing - no field adjustment is required.
- Nozzle is designed with extra large hand opening to accommodate gloves or mittens.
- Automatic shut-off with dual poppets for easy opening.
- Check valve is in the nozzle body, not the spout, for inexpensive, fast spout replacement.
- Right angle design allows nozzle to "fit" close to walls and corners.
- Two position hold open latch.
- Cast-in protective standoffs provide durability with rough usage.

New Nozzles

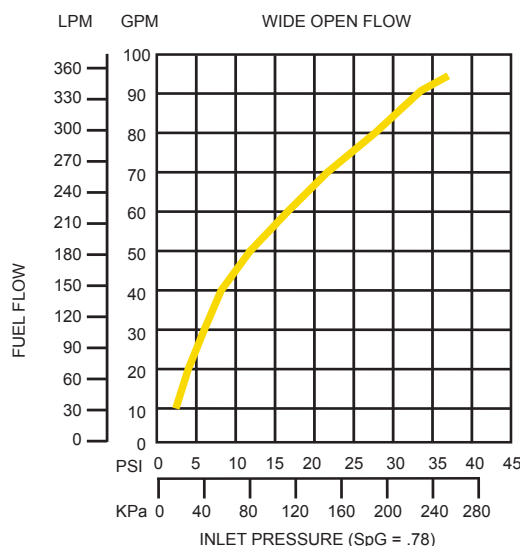

MODEL NO.	DESCRIPTION	SHIPPING WEIGHT LBS (KG)
652310N [^]	with two position hold-open latch	3.96 (1.79)
		[^] NOT LISTED

Rebuilt Nozzles

MODEL NO.	DESCRIPTION	SHIPPING WEIGHT LBS (KG)
879810N [^]	with two position hold-open latch	3.96 (1.79)
		[^] NOT LISTED

Construction

Body	Die Cast Aluminum
Seals	Fluorocarbon
Packing	Double o-ring seal protected by fiber reinforced Teflon [®]
Lever	One piece contoured steel with hard plastic cover
Inlet	1-1/2 in / 38 mm NPT
Spout	1-3/8 in / 34.9 mm O.D
