

1 **EC TYPE-EXAMINATION CERTIFICATE**

2 Component intended for use in Potentially Explosive Atmospheres Directive 94/9/EC

3 Certificate Number: **Sira 08ATEX9215U** Issue: **2**

4 Component: **V34, V34I and V34IS Liquid Fuel Dispenser Nozzle**

5 Applicant: **The Husky Corporation**

6 Address: 2325 Husky Way  
Pacific  
Missouri  
63069  
USA

7 This component and any acceptable variation thereto are specified in the schedule to this certificate and the documents therein referred to.

8 Sira Certification Service, notified body number 0518 in accordance with Article 9 of Directive 94/9/EC of 23 March 1994, certifies that this component has been found to comply with the Essential Health and Safety Requirements relating to the design and construction of a component intended for use in potentially explosive atmospheres given in Annex II to the Directive.

The examination and test results are recorded in the confidential reports listed in Section 14.2.

9 Compliance with the Essential Health and Safety Requirements, with the exception of those listed in the schedule to this certificate, has been assured by compliance with the following documents:

EN 13012:2001 EN 13463-1:2001

The above list of documents may detail standards that do not appear on the UKAS Scope of Accreditation, but have been added through Sira's flexible scope of accreditation, which is available on request.

10 The sign 'U' is placed after the certificate number to indicate that the product assessed is a component and may be subject to further assessment when incorporated into equipment. Any special conditions for safe use are listed in the schedule to this certificate.

11 This EC type-examination certificate relates only to the design and construction of the specified component. If applicable, further requirements of this Directive apply to the manufacture and supply of this component.

12 The marking of the component shall include the following:

II 1 G  
EN 13012 Type 1

Project Number 27626  
C. Index 09

A C Smith  
Certification Manager

This certificate and its schedules may only be reproduced in its entirety and without change.

## SCHEDULE

### EC TYPE-EXAMINATION CERTIFICATE

Sira 08ATEX9215U  
Issue 2

#### 13 DESCRIPTION OF COMPONENT

The V34 Vapour Recovery Nozzles are intended for the automatic delivery of liquid fuel at flow-rate of up to 40 l/min. The main bodies are manufactured from cast aluminium with a separate aluminium delivery spout assembly at the front. At the front of the V34 Vapour Recovery Nozzles there is an entry hole for the attachment of the delivery spout assembly, which is secured via a locking nut. The main bodies are fitted with a trigger type, operating lever assembly that is protected by a guard formed by the cast body, this assembly directly actuates an internal valve to control the delivery of fuel. The main bodies also contain an attitude sensing device and an over-fill cut-off device. The rear of the main bodies have a female-threaded, M34 x 1.5, entry hole to allow a suitable, liquid fuel, delivery hose assembly to be attached.

#### Design options

- The spout may have an additional vapour recovery sleeve fitted (V34I and V34IS only).
- The main body may be fitted with a Vapour Splash Guard.
- The main body may be fitted with a Full Grip Guard or Reguard.
- The lever assembly may be fitted with a Lever Cover.

**Variation 1** - This variation introduced the following changes:

- To recognise the introduction of a 'Double Poppet' variant.

**Variation 2** - This variation introduced the following changes:

- The recognition of minor drawing modifications; these amendments are administrative or involve changes to the design that do not affect the aspects of the product that are relevant to explosion safety.

#### 14 DESCRIPTIVE DOCUMENTS

##### 14.1 Drawings

Refer to Certificate Annexe.

##### 14.2 Associated Sira Reports and Certificate History

Issue	Date	Report number	Comment
0	23 November 2009	R18076A	The release of the prime certificate.
1	10 June 2010	R21981A/00	The introduction of Variation 1.
2	30 May 2013	R27626A/00	The introduction of Variation 2.

#### 15 SPECIAL CONDITIONS FOR SAFE USE

None

#### 16 ESSENTIAL HEALTH AND SAFETY REQUIREMENTS OF ANNEX II (EHSRs)

The relevant EHSRs that are not addressed by the standards listed in this certificate have been identified and individually assessed in the reports listed in Section 14.2.

#### 17 CONDITIONS OF CERTIFICATION

- 17.1 The use of this certificate is subject to the Regulations Applicable to Holders of Sira Certificates.

This certificate and its schedules may only be reproduced in its entirety and without change.

**SCHEDULE**

**EC TYPE-EXAMINATION CERTIFICATE**

**Sira 08ATEX9215U  
Issue 2**

- 17.2 Holders of EC type-examination certificates are required to comply with the production control requirements defined in Article 8 of directive 94/9/EC.
- 17.3 Each V34 Vapour Recovery Fuel Dispenser Nozzle shall be subjected to the routine tests detailed in EN 13012 Table 6.

This certificate and its schedules may only be reproduced in its entirety and without change.
