

## EU-TYPE EXAMINATION CERTIFICATE

Component intended for use in Potentially Explosive Atmospheres Directive 2014/34/EU

Certificate Number: **Sira 10ATEX9266U** Issue: **7**

Component: **1+X and 1+XS Range of Liquid Fuel Dispenser Nozzles**

Applicant: **The Husky Corporation**

Address: **2325 Husky Way  
Pacific  
Missouri 63069  
USA**

This component and any acceptable variation thereto is specified in the schedule to this certificate and the documents therein referred to.

CSA Group Netherlands B.V., notified body number 2813 in accordance with Articles 17 and 21 of Directive 2014/34/EU of the European Parliament and of the Council, dated 26 February 2014, certifies that this component has been found to comply with the Essential Health and Safety Requirements relating to the design and construction of a component intended for use in potentially explosive atmospheres given in Annex II to the Directive.

The examination and test results are recorded in the confidential reports listed in Section 14.2.

Compliance with the Essential Health and Safety Requirements, with the exception of those listed in the schedule to this certificate, has been assured by compliance with the following documents:

EN 13012:2012                      EN 13463-1:2009

The sign 'U' is placed after the certificate number to indicate that the product assessed is a component and may be subject to further assessment when incorporated into equipment. Any limitations of use are listed in the schedule to this certificate.

This EU-Type Examination Certificate relates only to the design and construction of the specified component. If applicable, further requirements of this Directive apply to the manufacture and supply of this component.

The marking of the component shall include the following:

II 1 G  
EN 13012  
Type I

Project Number    80085905

Signed: J A May

Title: Director of Operations

This certificate and its schedules may only be reproduced in its entirety and without change

6812 AR, Arnhem,  
The Netherlands

## SCHEDULE

### EU-TYPE EXAMINATION CERTIFICATE

Sira 10ATEX9266U  
Issue 6

#### 13 DESCRIPTION OF COMPONENT

The nozzles are intended for the automatic delivery of liquid fuel at a flow-rate of up to 40 l/min or Ad Blue<sup>®</sup> (AUS 32) at a flow rate of 10 litres/min for the 1+X model only. The main bodies are manufactured from cast aluminium with a separate aluminium delivery spout assembly at the front. The bodies are fitted with a trigger type, operating lever assembly that is protected by a guard formed integrally with the cast body. This assembly directly actuates an internal valve to control the delivery of fuel. The main bodies also contain an attitude sensing device and an over-fill cut-off device. The rear of the main bodies have a female-threaded, 3/4" BSP entry hole to allow a suitable, liquid fuel, delivery hose or Ad Blue<sup>®</sup> (AUS 32) assembly to be attached.

##### Models

- 1+X - standard model
- 1+X - double poppet
- 1 +X Ad Blue<sup>®</sup> variant capable of additive delivery at 10 Litres/Min.
- 1+XS – with pressure activated valve
- 1+XS - with pressure activated valve & double poppet
- 1+XS- with pressure activated valve, double poppet with sight glass

'S' models include no pressure no flow feature.  
'Double poppet' feature for fine flow control

**Variation 1** - This variation introduced the following change:

- i. The introduction of an alternative spout assembly ('LDD' spout) was recognised.

**Variation 2** - This variation introduced the following changes:

- i. Minor drawing modifications were recognised, these are mainly administrative but also involve material and dimensional changes.
- ii. Three unreleased drawings were removed.

**Variation 3** - This variation introduced the following changes:

- i. The introduction of a new attitude support and check valve spring was approved.
- ii. Following appropriate assessment to demonstrate compliance with the latest technical knowledge, the document previously listed in section 9, EN 13012:2001, was replaced by EN 13012:2012.

**Variation 4** - This variation introduced the following change:

- i. The introduction of two types of nozzles with a moulded hand guard (keel) and a moulded lever, both are made from a non-metallic material.

**Variation 5** - This variation introduced the following changes:

- i. The introduction of the "tilt" poppet modification to the range of Liquid Fuel Dispenser Nozzles.
- ii. The drawings were updated in a new drawing package to show "tilt" poppet modification and to replace existing drawings: 10\_ATEX replaces drawings 002227A, 002228A & 005787A. 10S\_ATEX replaces drawings: 002244A, 007410A and 007495A.

**Variation 6** - This variation introduced the following change:

- i. To allow a variant capable of delivering Ad Blue<sup>®</sup> (AUS 32\*) at 10 litres/min for the 1+X model only. The description was amended accordingly.  
\* North American version of Ad Blue<sup>®</sup>.

#### 14 DESCRIPTIVE DOCUMENTS

##### 14.1 Drawings

Refer to Certificate Annexe.

Issue	Date	Report number	Comment
0	24 November 2010	R21772A/00	The release of the prime certificate.
1	5 December 2011	R26273A/00	The introduction of Variation 1.
2	28 March 2013	R27625A/00	The introduction of Variation 2.
3	26 March 2015	R70008475A	The introduction of Variation 3.
4	13 November 2015	R70036568A	The introduction of Variation 4.
5	08 August 2017	R70128301A	This Issue covers the following changes: <ul style="list-style-type: none"><li>• EC-Type Examination Certificate in accordance with 94/9/EC updated to EU-Type Examination Certificate in accordance with Directive 2014/34/EU. (In accordance with Article 41 of Directive 2014/34/EU, EC-Type Examination Certificates referring to 94/9/EC that were in existence prior to the date of application of 2014/34/EU (20 April 2016) may be referenced as if they were issued in accordance with Directive 2014/34/EU. Variations to such EC-Type Examination Certificates may continue to bear the original certificate number issued prior to 20 April 2016.)</li><li>• The introduction of Variation 5.</li></ul>
6	31 October 2019	0822	Transfer of certificate Sira 10ATEX9266U from Sira Certification Service to CSA Group Netherlands B.V.
7	11 August 2021	R80085905A	The introduction of Variation 6.

#### 15 SCHEDULE OF LIMITATIONS

None

#### 16 ESSENTIAL HEALTH AND SAFETY REQUIREMENTS OF ANNEX II (EHSRs)

The relevant EHSRs that are not addressed by the standards listed in this certificate have been identified and individually assessed in the reports listed in Section 14.2.

#### 17 CONDITIONS OF MANUFACTURE

17.1 The use of this certificate is subject to the Regulations Applicable to Holders of CSA Certificates.

17.2 Holders of EU-Type Examination Certificates are required to comply with the conformity to type requirements defined in Article 13 of Directive 2014/34/EU.

17.3 Each nozzle shall be subjected to the routine tests detailed in EN 13012 Table 6.
