

1 EU-TYPE EXAMINATION CERTIFICATE

2 Component intended for use in Potentially Explosive Atmospheres Directive 2014/34/EU

3 Certificate Number: Sira 10ATEX9266U Issue: 8

4 Component: 1+X and 1+XS Range of Liquid Fuel Dispenser Nozzles

5 Applicant: The Husky Corporation

6 Address: 2325 Husky Way

Pacific

Missouri 63069

USA

- 7 This component and any acceptable variation thereto are specified in the schedule to this certificate and the documents therein referred to.
- CSA Group Netherlands B.V. notified body number 2813 in accordance with Articles 17 and 21 of Directive 2014/34/EU of the European Parliament and of the Council, dated 26 February 2014, certifies that this component has been found to comply with the Essential Health and Safety Requirements relating to the design and construction of a component intended for use in potentially explosive atmospheres given in Annex II to the Directive.

The examination and test results are recorded in the confidential reports listed in Section 14.2.

9 Compliance with the Essential Health and Safety Requirements, with the exception of those listed in the schedule to this certificate, has been assured by compliance with the following documents:

EN 13012:2012 EN 13463-1:2009

- The sign 'U' is placed after the certificate number to indicate that the product assessed is a component and may be subject to further assessment when incorporated into equipment. Any limitations of use are listed in the schedule to this certificate.
- This EU-Type Examination Certificate relates only to the design and construction of the specified component. If applicable, further requirements of this Directive apply to the manufacture and supply of this component.
- 12 The marking of the component shall include the following:

II 1 G EN 13012 Type I

Signed:

M Halliwell

Title:

Director of Operations

'S' models include no pressure no flow feature.
'Double poppet' feature for fine flow control

SCHEDULE

EU-TYPE EXAMINATION CERTIFICATE

Sira 10ATEX9266U Issue 8

13 DESCRIPTION OF COMPONENT

The nozzles are intended for the automatic delivery of liquid fuel at a flow-rate of up to 40 l/min or Ad Blue[©] (AUS 32) at a flow rate of 10 litres/min for the 1+X model only. The main bodies are manufactured from cast aluminium with a separate aluminium delivery spout assembly at the front. The bodies are fitted with a, trigger type, operating lever assembly that is protected by a guard formed integrally with the cast body. This assembly directly actuates an internal valve to control the delivery of fuel. The main bodies also contain an attitude sensing device and an over-fill cut-off device. The rear of the main bodies have a female-threaded, ³/₄" BSP entry hole to allow a suitable, liquid fuel, delivery hose or Ad Blue[©] (AUS 32) assembly to be attached.

Models

1+X - standard model

1+X - double poppet

1 +X Ad Blue[©] variant capable of additive delivery at 10 Litres/Min.

1+XS - with pressure activated valve

1+XS - with pressure activated valve & double poppet

1+XS- with pressure activated valve, double poppet with sight glass

Variation 1 - This variation introduced the following change:

i. The introduction of an alternative spout assembly ('LDD' spout) was recognised.

Variation 2 - This variation introduced the following changes:

- i. Minor drawing modifications were recognised, these are mainly administrative but also involve material and dimensional changes.
- ii. Three unreleased drawings were removed.

Variation 3 - This variation introduced the following changes:

- The introduction of a new attitude support and check valve spring was approved.
- ii. Following appropriate assessment to demonstrate compliance with the latest technical knowledge, the document previously listed in section 9, EN 13012:2001, was replaced by EN 13012:2012.

Variation 4 - This variation introduced the following change:

i. The introduction of two types of nozzles with a moulded hand guard (keel) and a moulded lever, both are made from a non-metallic material.

Variation 5 - This variation introduced the following changes:

- i. The introduction of the "tilt" poppet modification to the range of Liquid Fuel Dispenser Nozzles.
- ii. The drawings were updated in a new drawing package to show "tilt" poppet modification and to replace existing drawings: 10_ATEX replaces drawings 002227A, 002228A & 005787A. 10S_ATEX replaces drawings: 002244A, 007410A and 007495A.

Variation 6 - This variation introduced the following change:

- i. To allow a variant capable of delivering Ad Blue[©] (AUS 32*) at 10 litres/min for the 1+X model only. The description was amended accordingly.
 - * North American version of Ad Blue[©].

DQD 544.10 Issue Date: 2022-04-14

SCHEDULE

EU-TYPE EXAMINATION CERTIFICATE

Sira 10ATEX9266U Issue 8

Variation 7 - This variation introduced the following change:

i. Introduction of Part No 013835 – Poppet Stem Bushing, and replacement of Part No 000020 – Packing Seal, with Part No 012080 – Short Packing Seal.

14 DESCRIPTIVE DOCUMENTS

14.1 Drawings

15 SCHEDULE OF LIMITATIONS

None

16 ESSENTIAL HEALTH AND SAFETY REQUIREMENTS OF ANNEX II (EHSRs)

The relevant EHSRs that are not addressed by the standards listed in this certificate have been identified and individually assessed in the reports listed in Section 14.2.

17 CONDITIONS OF MANUFACTURE

- 17.1 The use of this certificate is subject to the Regulations Applicable to Holders of CSA Group Netherlands B.V. certificates.
- 17.2 Holders of EU-Type Examination Certificates are required to comply with the conformity to type requirements defined in Article 13 of Directive 2014/34/EU.
- 17.3 Each nozzle shall be subjected to the routine tests detailed in EN 13012 Table 6.
